

PocketPOS

RedFin PocketPOS

for iPhone®, iPad®, and iPod Touch®

Leverage your business's mobility by turning your iPhone®, iPad®, and iPod Touch® into a powerful payment processing system powered by the PCI Compliant RedFin Network Payment Gateway.

The **RedFin PocketPOS** solution is specifically designed as a secure, mobile-based payment solution that will process transactions quickly and safely on your iOS® based device

With its built-in secure magnetic stripe reader, The P25-M Printer/Reader is ready for card-present transactions, and prints high-impact receipts directly from your device.
